

Drop Cloth Plastic Sheeting

Product Information :

The Multiplast indoor protective plastic drop cloth plastic sheeting is designed to safeguard your furniture and surfaces from dust, splashes, and various stains during painting and renovation work.

BENEFITS

IDEAL SIZE IN HANDY FORMAT
ELECTROSTATIC EFFECT
ECO FRIENDLY
MADE IN FRANCE

Technical features :

- CONFIDENT PAINTING, NO MORE UNWANTED STAINS: Suitable for indoor projects such as sanding, painting, wallpaper installation, or chimney sweeping.
- RESISTANT AND PROTECTIVE FOR A CLEAN RENOVATION: Multiplast polyethylene sheet and plastic cover for furniture and painting sheet ensure that your furniture stays clean. These large plastic sheets for furniture protection work effectively as a paint plastic covering.
- ELECTROSTATIC EFFECT: The thin protective drop cloth clings well to furniture and surfaces, staying securely in place.
- IDEAL SIZE: Each drop cloth measures 9 x 12 ft for your furniture, providing 108 sq.ft of total coverage in a handy format.
- MADE IN FRANCE: Multiplast is a French brand specializing in protective plastic drop clothes for various tasks, such as painting and sanding. Made from recycled materials.
- ECO FRIENDLY: Multiplast offers fully recycled and recyclable polyethylene products and is committed to resource conservation by using recycled materials in its drop clothes, supporting the circular economy.
- SEGMENT: Suitable for both professionals and individuals.
- Size : 9 ft (width) x 9 ft (length)
- Thickness : Slim quality / 0.4 mil = 10.16 μ

Applications :

Drop cloth plastic sheeting to cover furniture, with slim thickness protecting with confidence your furniture and surfaces from dust, splashes and various stains during painting and renovation work.
